### **Section 2: Executive Summary**

No samples were taken during this survey.

The following items have been either been "Strongly Presumed" To Contain Asbestos or "Presumed" to Contain Asbestos as they were either visually identified in being so, labelled after previously being sampled on prior surveys or not accessible at the time of the survey:

Status	Sample Type	Location
Previously Sampled	Profiled Roof - Cement Product	Ground Floor Building 1 - Loft Space 002

The presence of asbestos in these areas cannot be ascertained at this time. If any works are to be carried out in these areas in the future, then these works should be approached cautiously.

In accordance with current legislation, any suspect materials encountered in these areas are to be assumed to contain asbestos until proven otherwise. This will normally involve cessation of works in the affected area.

#### **Section 3: Site Description & Survey Information**

#### Brief description on the general building construction

Building 1 - Timber frame construction with a pitched profiled cement roof, overclad with metal. Building 2 - Timber frame building with a pitched metal roof

#### **Caveat for no access areas**

Non access within OC Office in Building 1 as was locked, and no key was available.

EXTERNAL MATERIALS	
Roof Type	Pitched
Roof Materials	Profiled Metal, Profiled cement
Soffits	Timber
Fascia	Timber, Metal
Walls	Timber
Verge Under cloaking	N/A
Guttering	Plastic
Downpipes	Plastic
Window/Door frames	Aluminum
Other Materials	N/A
INTERNAL MATERIALS	
Loft Insulation	Fiberglass
Roof Underlining	None
Ceilings	Plasterboard
Walls <i>Internal</i>	Plasterboard, Timber
Floors	Carpet, Lino, Timber
Doors/Frames	Timber
Pipework/Insulation	Copper, Foam
Boxings	Plasterboard, Timber
Boiler Make	N/A
Flue Pipes	N/A
Storage Heaters	Non-Asbestos Heaters
Electrical Boxes/Machinery	Modern
Ducting/Risers	N/A
Stairs	N/A
Lift Shafts	N/A
Other Materials	N/A

## **Section 4: Positive, Presumed or No Access Items**

Item No: 2 Sample No: N/A

Location: Ground Floor - Building 1 - Loft Space 002

Material Description:	Profiled Roof - Cement Product			
Identification:	Previously Sampled - Asbesto	os Detected		
Approx. quantity:	120 m²			
Accessibility	Difficult Assessment So			
Product type:	Cement	1		
Extent of Damage:	Slight / minor damage	1		
Surface Treatment:	Unsealed Cement	1		
Asbestos type:	Chrysotile	1		
	Material Assessment Score:	4		
Priority Assessment Score: Negligible				
Action:	Manage			
Comments:	Previously sampled ref: Armour 30/9/19 Sample DK/3. Overc			

Document Name	Author	Issued by	Revision Number	Issue Date	Page No
2021	David Kelly	Armour AS	0	23/02/2021	6

## **Section 5: Negative Items**

Item No: 1 Sample No: N/A

**Location:** Ground Floor - Building 1 - OC Office 001

Material Description:	No Suspect Materials Fo	ound	
Identification:	N/A		
Approx. quantity:	N/A		
Accessibility	N/A	Assessment Score	
Product type:	N/A	N/A	
Extent of Damage:	N/A	N/A	
Surface Treatment:	N/A	N/A	
Asbestos type:	N/A	N/A	
	Material Assessment Score:	N/A	
	Priority Assessment Score:	N/A	
Action:	N/A		
Comments:	Previously a no access area. Now accessed and no asbestos found

### **Section 6: Survey Objectives**

Instructions were received from Kelvin Walker of Wessex RFCA to carry out a Re-Inspection asbestos survey at 2385 Melksham, 33 Lancaster Road, Wiltshire, SN12 6SS in accordance with HSG264 and Armour Analytical's quality procedures.

The survey was carried out on 18 February 2021 by David Kelly with the objective of facilitating a Re-Inspection report.

Document Name	Author	Issued by	Revision Number	Issue Date	Page No
2021	David Kelly	Armour AS	0	23/02/2021	8

#### **Section 7: Survey Notes**

This report has been written with reference to the various Guidance Notes etc, issued, and current at the date of this report and describes circumstances at the site on the date the investigation took place.

Where similar items exist in the building, only one or two samples may have been taken to ascertain the material content. It was assumed that similar products were of the same material.

Any person undertaking work within the buildings should be told of the presence of asbestos. This briefing also applies to any other person associated with the site, including staff, subcontractors and others.

The drawings in the report are not to scale and are illustrative only to indicate approximate locations. The descriptions used are for location identification purposes.

All the recommendations described in this report are based upon assumptions made after consideration of the type of material, condition of the material, its location, analysis result and type of use the area is thought to be subjected to. However, statutory authorities or others could require amendments based on local knowledge, change in legislation, change in use or indeed other conditions or criteria.

Samples taken from floor tiles (or similar material) may include a bitumen adhesive as part of the sample. It is known that some proprietary brands of bitumen have an asbestos content and this will be included as an integral part of the bulk sample unless otherwise stated.

Due to the artex being non-homogenous, it is recommended to treat all areas as containing asbestos if you have a positive sample of artex.

### **Section 8: Material Assessment Algorithm**

Variable	Score	Examples
Product type	1	Vinyl, 'Bakelite', Cement, Textured Coating, Non-Friable Debris, Floor Files, Bitumen, Reinforced Plastics, Mastic (putty), Windowsills
	2	Asbestos Insulating Board, Paper, Rope, Burned Cement Debris, Flashguards, Gaskets
	3	Pipe Insulation, Spray Coating, Friable Debris, Loose Fill Asbestos
Condition / Damage	0	Good
	1	Slight / Minor Damage
	2	Moderate Damage – Breakage to Surface Treatment
	3	Major Damage – Smashed or Exposed Material
Surface Treatment	0	Non-Friable E.G. Vinyl
	1	Enclosed Insulation, Encapsulated AIB, Unsealed Cement, Woven Material, Paper
	2	Unsealed AIB, Encapsulated Insulation, Encapsulated Pipe Lagging
	3	Unsealed Insulation, Spray Coating, Unsealed Pipe Lagging
Asbestos Type	1	Chrysotile
	2	Amosite & Other Amphiboles
	3	Crocidolite

The scores from each of the four sections are added together to produce a risk score:

Risk score	Risk assessment	
10 or more	High risk	
7 – 9	Medium risk	
5 – 6	Low risk	
4 & below	Negligible risk
